

Jacqueline

Jacqueline, a jewel glass waterjet mosaic shown in Absolute white, Chalcedony, Peridot, and Quartz/Agate.

Made entirely by hand, Jacqueline is inspired by the inlay technique which originated in 17th century India. This mosaic interprets the cultures of South Asia, replacing traditional bone and mother of pearl with brilliant jewel glass and natural stone.

Product Specifications:

Custom: YES
Thickness: 1 cm
Finishes: Honed, Polished

Product Applications:

Bathrooms
Interior
Kitchens

Residential
Walls
